Meeting called to order at 7:10 PM by President LeRoy Peters.

1. Evictions
  - a. If an attorney is handling an eviction and filing the paperwork with the court, the attorney must file electronically.
  - b. If you file without an attorney, you can still file in person for the time being.
2. Property Taxes
  - a. Is it possible to get someone to figure out comps and do the paperwork to get lower taxes?
  - b. Lynette debates the taxes with the city and shows pictures of the property while dilapidated and gets it assessed at that time. The tax rate is then locked in until it is sold again, even after the property is fixed up.
  - c. Taxes jump a lot when a property is sold – it is re-assessed again by the new sale value.
  - d. In many cases, people on fixed income or social security cannot afford the property tax – some bills are being lobbied to offset this, but they may not pass.
3. Tenant Applications
  - a. Do you make them fill out all the information, such as driver's license number, social security number, etc...
